

For our company headquarters in Isernhagen (Hanover) we are looking to employ a reliable person full-time with immediate effect

Product Owner – Process Plants (m/f/d)

for an unlimited contractual relationship

Your area of responsibility:

- Collaborate with cross-functional teams, including engineering, development and sales, to define product vision, strategy, and roadmap for our engineering software.
- Translate customer requirements and business objectives into detailed product specifications, user stories, and acceptance criteria.
- Prioritize and manage the product backlog, ensuring that development efforts align with business priorities, market demands, and customer expectations.
- Work closely with the development team to define and communicate product requirements, user interfaces, and feature enhancements.
- Act as the primary point of contact for stakeholders, addressing their inquiries, providing product updates, and managing expectations.
- Conduct product demos, gather user feedback, and iterate on product designs to deliver a user-centric experience.
- Collaborate with the QA team to define test scenarios, conduct acceptance testing, and ensure high-quality software releases.
- Stay updated on industry trends, emerging technologies, and regulatory requirements to drive innovation and maintain a competitive edge.

Skills / Prerequisites:

- Bachelor's or master's degree in computer science, engineering, or a related field.
- Proven experience (3 years) working as a Product Owner, Product Manager, or similar role in the software industry, preferably with engineering software or solutions for the process industry.
- Strong understanding of software development methodologies, including Agile, Scrum, and Kanban.
- Excellent analytical, problem-solving, and decision-making skills with a data-driven approach.
- Ability to effectively communicate complex technical concepts to both technical and non-technical stakeholders.
- Experience with user-centered design principles and usability testing methodologies.

- Familiarity with the process industry, including oil and gas, chemical, pharmaceutical, or related sectors, is highly desirable.
- Proficient in using project management and collaboration tools such as MS DevOps, JIRA, Confluence, or similar platforms.
- Strong team player with excellent interpersonal and communication skills.

We offer you:

- In-house training and qualifications
- Various benefits (Hansefit, GVH job ticket, job bike, etc.)
- A consistently modern working environment. Get an idea of this for yourself by watching <https://www.youtube.com/watch?v=9PpgpLpLLMI> .

Apply by email at jobs@aucotec.com. If you have any questions, Ms Beatrix Tillmann, Executive Assistant, will be happy to answer them by phone on 0511 6103-0.

AUCOTEC AG, Hannoversche Str. 105, 30916 Isernhagen
