

To strengthen our Software Development department at our company headquarters in Isernhagen (Hanover), we are looking for a

Software Tester - Platform (m/f/x)

Your area of responsibility:

- You will assist the development process of the Engineering Base product with all test tasks in our QM SCRUM team.
- Performing handovers and reviews of new functionalities with Product Managers and Solution Experts
- Designing and reviewing test cases and execution of regression tests
- Initiation and maintenance of all work tasks in Azure DevOps
- Independent and close cooperation with software developers until the release of the implemented requirements
- Active participation in further developing the quality management process
- You will support representatives of other departments with your expert knowledge

Skills / Prerequisites:

- Goal-oriented, team player and communicative personality
- High quality awareness
- Structured and transparent working method
- Enjoy working in a motivated team of quality managers, software developers and technical experts
- Willingness to become familiar with unknown subject areas
- Communication skills in German and English
- Also, lateral entrants, with a high affinity for testing
- Good to excellent knowledge in the following areas:
 - Manual testing of GUI-based desktop applications using specific test tools
 - Installation, application, or knowledge of Microsoft operating systems in an Active Directory domain-supported network
 - Set-up and management of virtualizations preferably with VMware ESXi
 - Application or knowledge of Microsoft products
 - Client, Server Operating Systems
 - MS Office
- Desirable knowledge of the following areas
 - Browser-based applications based on AzureDevOps or Team Foundation Server
 - Knowledge of electrical or process engineering planning or production

We offer you:

- A permanent job in a promising market
- Customary salary
- Personal and professional freedom and the opportunity to take on responsibility
- Good work-life balance
- The opportunity to work remotely/mobile at times
- Attractive professional and personal training opportunities
- Very good working environment as a member of a dynamic team
- Various benefits (Hansefit, GVH Jobcard, JobRad, etc.)
- Modern work equipment and an innovative working environment. Get an idea of this for yourself by watching <https://www.youtube.com/watch?v=9PpgpLpLLMI>.

Apply by email to jobs@aucotec.com If you have any queries, please do not hesitate to contact Ms Beatrix Tillmann, Executive Assistant, by phone on 0511 6103-0.
